ISE Congress News and Updates

ICE Virtual 2021: Full content on-demand until May 28

The ICE 2021 Virtual Congress was an unmissable opportunity to get the latest science in all fields of Endocrinology, without the planning and expense of a physical meeting. Did you miss the meeting? We have got you covered! See below details to access the entire program, and be sure to also share this news with your peers!

If you missed the excellent program at ICE 2021 you can still register and enjoy all session recordings **ON DEMAND** until May 28, 2021.

After this date, only a selection of outstanding highlights from the ICE 2021 program will be published on the ISE Global Education Hub accessible to the public for free.

**Webinar recording and CME/CPD activity available in 4
different languages - English, Spanish, French, German**

**Ask the Experts Webinar: What is the role of GLP-1 RAs in the current
landscape of incretin therapies for T2D?**

Earlier this year, the ISE held a very successful interactive webinar session to
explore the role of GLP-1 RAs in the current landscape of incretin therapies for
type 2 diabetes.

During this webinar, Dr Abbas Raza (Pakistan), Dr Alvin Powers (USA), Dr David
D'Alessio (USA), and Dr Boris Draznin (USA) engaged in a case-based
discussion around Diabetes Management, giving participants the opportunity to
ask questions during a Meet the Expert virtual session.

Whether you attended or missed this session, we invite you to revisit all the content in your preferred language: English, Spanish, French, or German. In addition, we also encourage you to solve a CME-accredited case study prepared by the experts to apply what you learned.

News & Updates

COVID-19 Vaccine Introduction toolkit from WHO

Countries are in the process of deploying COVID-19 vaccines, bringing new hope to the fight against the global pandemic. WHO, UNICEF, Gavi and many other partners are working together to support countries in preparing for COVID-19 vaccine introduction.

The COVID-19 vaccine introduction toolbox equips all countries to prepare for and implement COVID-19 vaccination by providing guidance, tools, and training. This toolbox is intended to support Ministries of Health, health workers, partner organizations, and other stakeholders.

Learn more and find the toolkit in multiple languages on the link below!
