The virtual
experience

We look forward to seeing you online

The conference will offer a comprehensive CME program covering different aspects of diabetes and endocrine treatment and care.

Mark Molitch, Susan Mandel, and Anand Vaidya are only a few of the renowned specialists in the field that will give lectures, which will be followed by case studies presented by specialists from the region.

Take advantage of this opportunity and ask your questions to the speakers during the dedicated live Q&A sessions.

You don't need to choose between sessions, you don't need to be online at a given time; sessions will be available on-demand **for the next 3 months** which allows you to be more flexible in building your conference agenda.

About the ISE Endocrinology Practice Series

The ISE Endocrinology Practice is a conference hosted by ISE in collaboration with EDES and is the first of a series of biennial regional CME focused educational events rotating the world in the coming years. The aim of ISE is to establish the regional practice series as forum for endocrinologists regionally, to improve their knowledge and skills and apply internationally recognized best practices to the review of regional cases from their clinic.
