ISE Endocrinology Practice – Middle East 2021: successful regional conference in collaboration with EDES

We are excited to share that ISE, in collaboration with the EDES, held the 1st ISE Endocrinology Practice – Middle East on the 17-18th of September. This ISE Endocrinology Practice is the first of a series of regional clinical-focused CME events planned every other year.

Event Program and Faculty

The two-day event brought best
practices from world-renowned

endocrinologists to the Middle East linked to local cases presented by experts from the region. This novel CME format was found interactive and valuable and many delegates from around the world shared it was truly relevant to the challenges they meet on a daily basis.

It's not too late to join!

You can still register until November 8th and access all sessions on-demand through the virtual platform, earn CME credits while enjoying the presentations from eminent international speakers and review complex patient cases from the region. Review the diverse program and register now to access all content until mid-December.

ISE Projects

News and Updates

ISE Advocacy Working Group: kick-off meeting

In September, 12 accomplished endocrinologists from around the world met for the first meeting of the ISE Advocacy Working Group. They discussed priorities in advocacy at international level, are developing an action plan for policy engagement, and researching opportunities for further collaborations in the international advocacy arena.

ISE has already been involved in multiple projects of the WHO, the NCD Alliance, other partners' activities, and will now also work with its members to support advocacy efforts at national level where needed. Stay tuned for more news!

ISE Endorsed Events around the world

ISE helps foster the globalisation and inter-regional development of existing national meetings by offering promotion, collaboration in joint symposia, guidance with the development of the program and speaker support to member societies around the world through its CME Program.

2021 Diabetes Canada/CSEM Professional Conference

Attend Canada's most highly anticipated diabetes-related virtual conference (23-26 November) and learn about significant advances in diabetes research, treatment and care from leading diabetes, endocrinology and related field experts. Register with the code ISE2021 and get 10% off the registration fee! [Register here.](#)

ESA/SRB/ANZBMS Annual Scientific Meeting >>

The Endocrine Society of Australia organizes its Annual Meeting on 21-24 November 2021 in collaboration with the Society for Reproductive Biology & the Australian and New Zealand Bone and Mineral Society. Learn more about the virtual meeting and the program prepared for you by the Scientific Committee. Register today [on this link](#).

ISE-ISN Webinar Series: where Endocrinology meets Nephrology

We would like to invite you to a joint webinar organized by the International Society of Endocrinology and the International Society of Nephrology as part of a mutual commitment to advance the management of overlapping endocrinology and kidney diseases worldwide.

The webinar consists of two interactive parts:

- **PART 1 held on 26 October 2021:** the recordings are already available on the ISE Global Education Hub - [click here for direct access](#).
- [Register for PART 2](#) taking place on **3 November 2021 (13:00 CET)**:
Management of Bone disease in CKD – Complex case scenarios

***One week after the second part of the webinar, a CME/CPD activity will be available on the ISE Global Education Hub together with the on-demand recordings. Stay tuned!**

WEBINAR

Register for PART 1 and PART 2

Understanding the complexities in managing bone disease in CKD

PART 1

26 October, 2021 14:00 CET

PART 2

3 November, 2021 13:00 CET

Bart Clarke
MD, Professor of Medicine
Mayo Clinic, Rochester
Minnesota, USA

Ellie Kelepouris
MD, FACP, FAHA
Professor of Clinical Medicine
University of Pennsylvania Perelman
School of Medicine, USA

Vivien Lim (Chair)
MBBS, MRCP
Endocrinologist practising at Gleneagles Hospital,
Singapore

Angela Yee-Moon Wang (Co-chair)
MD, PhD, FHKAM, FHKCP, FRCP
ISN Education WG Deputy Chair
Hong Kong

Solve 3 interactive cases: (3 CME/CPD total credits) **Management of Pediatric Thyroid Nodules and Differentiated Thyroid Cancer**

"I would like to invite you to access a series of online case studies I have developed on the Management of Thyroid Nodules and Differentiated Thyroid Cancer in pediatric patients, which are based on my professional experience with patients at the clinic", Dr. Andrew Bauer.

Watch Dr. Bauer's personal invitation below:

The cases will help you identify different types of thyroid cancer in children and adolescents and provide you with tools to recognize when to biopsy a thyroid nodule and decide on the appropriate surgical approach.

Each case is accredited by the European Accreditation Council for Continuing Medical Education (EACCME).

[Access the interactive cases here >>](#)

Log in to the [ISE Global Education Hub](#) to access all our educational activities and create a free account to join the more than **1600 endocrinologists** who are active in our online community!

NCD Alliance:

Survey on experiences and expectations towards an inclusive NCD agenda regarding conditions outside the '5x5' approach with a focus on Endocrine conditions

Noncommunicable diseases (NCDs) are the biggest contributor to death and disability worldwide, accounting for up to 41 million deaths annually.

The NCD Alliance is running a survey as part of the consultation on the needs and priorities of people living with NCDs outside [the '5x5' approach](#), with a specific focus on endocrine conditions. The survey aims to compile the interests, experiences and expectations of the community, in order to develop a

policy brief putting forward recommendations to policymakers and health programming organizations to facilitate a more inclusive NCD agenda.

Contribute to an inclusive NCD agenda focussing on endocrine conditions!

Take the survey and keep an eye out for the Policy Brief that will be launched on [**Universal Health Coverage Day**](#) on 12th December 2021.
